

WORKSHOP

Best Practice in Program and Project Management of Aviation Engineering Solutions

Tuesday 23rd March 2010 —2:00-3:00pm—Conference Hall / Foyer

Overview:

The workshop will begin with a 15 minute overview of the typical challenges that arise from most implementations. The audience will then be divided into 3 groups with the following topics:

- Selection of MRO Systems and Contract Management (Session 1)
- Program, Project Management and Change of Management in Aviation Engineering Technology Implementations. (Session 2)
- Technical Data Cleansing and Vendor Service Management (Session 3)

Each group session will last for 30 minutes. The workshop will close with a 15 minute session focusing on 3 case studies.

(Please tick)

I wish to attend the Best Practice in Program Management of Aviation Engineering Solutions Workshop

The workshops are very popular so please let us know which group session you are most interested in attending and which session would be your second choice:

(Please Tick)

First Choice **Second Choice**

• Session 1.

• Session 2

• Session 3
