The "Aircraft Commerce" Event App will go live **1 week before the start of the conference** and you will be sent an email with details on how to download the app and how to access all the relevant information.

PRE-CONFERENCE WORKSHOP *

We would like to invite you to register for and attend our **Digital Transformation in Aviation Workshop** taking place on **Tuesday 29th October, 14:00 – 17:30**. * There is a charge of USD \$250.00 per delegate to attend.

With the explosion of data and new technologies in the past 3 years, it is clear that Digital Transformation is something with which every airline and aviation company must engage. But what is 'digital transformation' and what are its implications for management, and those using and developing software solutions?

At the end of the session, participants will have a working knowledge of the different digital technologies trending in aviation and which new technologies are coming to market; understand the benefits of working with agile technology compared to traditional methods; and know how to implement this to drive digital transformation.
